

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**  
**Belen Water System Failed to Submit Corrective Action within Required Time Frame**

***Este informed continue informaci6n important acerca de su agua potable. Haga que alguien lo traduzca para usted, o hable con alguien que lo entienda***

Our water system recently violated a drinking water requirement. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did (are doing) to correct this situation.

A routine sanitary survey conducted in 2018 by John Pijawka with the New Mexico Environment Department-Drinking Water Bureau (NMED DWB) found

**During the Sanitary Survey we did not provide the Operation & Maintenance Manual**

We were to consult with the NMED-DWB and correct all deficiencies within 120 days as required by Environmental Protection Agency's (EPA's) Ground Water Rule. However, we failed to take these actions by the deadlines established by the NMED DWB.

**What should I do?**

- There is nothing you need to do.

**What does this mean?**

This is not an emergency. If it had been, you would have been notified within 24 hours.

\*

**What is being done?**

**We anticipate on resolving the violation by the end of April, 2019. We will meet with our compliance officer and provide them with the City of Belen Operation & Maintenance Manual**

**For more information, please contact:**
